About **RISING STARS**

We enrich our Stars from underserved communities by supporting, developing, and mentoring young student leaders from all backgrounds through education. **Education** matched with positive healthy living activities provide youth the skills necessary to be successful in life. We utilize the traditional knowledge systems carried within the Medicine Wheel teachings to help our youth create positive impacts and build success.

Our Programming Impact

In 2021 RSF ran a series of programs including Star-led programs. RSF provides scholarships, support, and mentorship opportunities to youth from underserved communities. Through impactful programming and partnerships, our foundation aims to develop leaders through a combination of academics and active living. Below you will find the number of sessions we hosted for StepIn Stone, Tutoring & Training (TNT), 1on1 Tutoring, Active Living and Personal Development.

Working for our Stars

RSF is a volunteer ran and operated organization, our talented team is small and mighty! The Executive team collaborates regularly to develop strategy, and review programs, events and partnerships.

Wilfred Sam-King

Founder & President

Development

The Year Ahead

We are committed to doing things in the right way. We will continue to strengthen our programming, governance and processes over the coming year to ensure we serve as many Stars as we can.
